Enrolment and Staff Ratios, 1984
Taux d'encadrement des élèves, 1984

INTRODUCTION

The student-staff ratio tables summarize the data on enrolment and teaching personnel employed in schools and in the central office of each school board in Ontario.

Sources of information are: September School Report for enrolment and full-time and part-time teachers employed in schools; September Board Report for teaching staff, supervisory officers, consultant staff, other professional staff employed at the board's central office, paraprofessional staff, and clerical and secretarial staff employed in schools and the board's central office.

The data are organized into four tables: 15.1, 15.2, 15.3, and 15.5. Each table presents data separately for public, Roman Catholic separate, and secondary schools. Tabulations labelled "public" include data on boards operating schools with Junior Kindergarten (JK) to Grade 8 programs and ungraded special education programs. There are 26 students enrolled in Grades 9 and 10 of public schools in 3 school boards in the Northwestern Region. Roman Catholic separate school boards operate schools with JK to Grade 10 programs and ungraded special education programs. Tables labelled "secondary" contain data on boards operating schools with Grade 9 to 13 programs.

Les tableaux des taux d'encadrement des élèves récapitulent les données sur l'effectif scolaire et sur le personnel enseignant qui travaille dans les écoles et au bureau central de chaque conseil scolaire de l'Ontario.

Les données sur l'effectif scolaire et les enseignants à temps plein et à temps partiel proviennent du Rapport de septembre des écoles. Les données sur le personnel enseignant, les agents de supervision, les conseillers pédagogiques et autres professionnels qui travaillent au bureau central des conseils, ainsi que sur le personnel paraprofessionnel, le personnel de soutien et le personnel du bureau qui travaille dans les écoles ou au bureau central des conseils proviennent du Rapport de septembre des conseils scolaires.

Les données dont divisées en quatre tableaux: 15.1, 15.2, 15.3, 15.5. Chaque tableau présente les données séparément pour les écoles publiques, les écoles séparées catholiques et les écoles secondaires. Les tableaux intitulés "écoles publiques" renferment des données portant sur les conseils scolaires responsables d'écoles ayant des classes de la maternelle à la 8e année ainsi que des programmes d'éducation de l'enfance en difficulté sans niveaux. Il y a 26 élèves inscrits en 9e et 10e années dans des écoles publiques réparties dans trois conseils scolaires de la région du Nord-Ouest. Les conseils d'écoles séparées catholiques sont responsables d'écoles ayant des classes de la maternelle à la 10e année ainsi que des programmes d'éducation de l'enfance en difficulté sans niveaux. Les tableaux intitulés "écoles secondaires" contiennent des données portant sur les conseils responsables d'écoles ayant des classes de la 9e à la 13e années.

Enrolments reported in the tabulations do not include students in schools for the trainable retarded, provincial schools, and educational programs or schools in care and treatment facilities. The definitions and the sources of data for each category of personnel are included in the tables.

Table 15.1 summarizes information on enrolment and full-time and part-time teachers employed in schools as of September 30, 1984. It also contains the data on teachers attached to the central office of the board. For the part-time teachers, both the number and full-time equivalent (FTE) are provided. Ratios per 1000 students are calculated for full-time teachers and all teachers employed in schools and the board's central office.

Table 15.2 provides information on enrolment as of September 30, 1984, the full-time equivalent and ratio per 1000 students for teaching staff (all teachers employed in schools and central office), supervisory officers, consultant staff, other professional staff, and the total of these four categories. The table also shows the student/teacher ratio (headcount of students divided by the number of teachers) for total teaching staff.

Table 15.3 gives information on enrolment as of September 30, 1984, and the number of paraprofessional, clerical and secretarial staff employed in schools and the board's central office. The ratio per 1000 students is provided for each category and for the total of the two categories.

Aucun des tableaux sur l'effectif scolaire n'inclue l'effectif des écoles pour déficients moyens, des écoles provinciales, ni des programmes éducatifs ou des écoles des centres de soins et de traitement. Les définitions et l'origine des données pour chaque catégorie de personnel sont incluses dans les tableaux.

Le tableau 15.1 récapitule des renseignements portant sur l'effectif et sur les enseignants qui travaille à temps plein et à temps partiel dans les écoles au 30 septembre 1984. Il contient également des connées portant sur les enseignants attachés au bureau central des conseils. Pour les enseignants à temps partiel, le nombre et l'équivalent en temps plein (ETP) sont fournis. Le taux d'encadrement pour 1000 élèves est calculé pour les enseignants à temps plein et tous les enseignants qui travaille dans les écoles et au bureau central des conseils.

Le tableau 15.2 fournit des renseignements sur l'effectif au 30 septembre 1984, l'équivalent en temps plein et la proportion d'enseignants (tous les enseignants qui travaillent dans les Ucoles et au bureau central des conseils), d'agents de supervision, de conseillers pédagogiques et autres professionnels pour 1000 élèves, ainsi que le total de ces quatres catégories. Le tableau montre également le rapport élèves-enseignant (le nombre d'élèves divisé par le nombre d'enseignants) pour 1;ensemble du personnel enseignant.

Le tableau 15.3 donne des renseignements sur l'effectif au 30 septembre 1984 et sur le nombre de paraprofessionnels et d'employés de soutien et de bureau qui travaille dans les écoles ou au bureau central des conseils. La proportion pour 1000 élèves est fournie par catégorie et pour le total des deux catégories.

Table 15.5 contains five different student/teacher ratios. These ratios are categorized and defined as follows:

1. Student/teacher ratio, headcount of students:
   a) September enrolment divided by the number of full-time teachers employed in schools (column 2);

   b) September enrolment divided by full-time equivalent of all teachers attached to schools (column 3).

2. Student/teacher ratio, full-time equivalent of students:
   a) September enrolment divided by the number of full-time teachers attached to schools (column 4);

   b) September enrolment divided by FTE of all teachers attached to schools (column 5);

   c) September enrolment divided by FTE of all teaching staff employed in schools and the board's central office (column 6).

Caution is advised when comparisons are made of the ratios per 1000 students, or student/teacher ratios of different boards of education. In comparing these indices, other board characteristics (e.g., the size or location of the board) may have to be considered.

Research & Information Branch
1985

Le tableau 15.5 contient cinq taux d'encadrement différents classés et définis comme suit:

1. Rapport élèves-enseignant, dénombrement éléves:
   a) effectif de septembre divisés par le nombre d'enseignants à temps plein qui travaillent dans les écoles (colonne 2);

   b) effectif de septembre divisés par l'équivalent en temps plein de tous les enseignants attachés aux écoles (colonne 3).

2. Rapport élèves-enseignant d'après l'équivalent en élèves à temps plein:
   a) effectif de septembre divisés par le nombre d'enseignants à temps plein attachés aux écoles (colonne 4);

   b) effectif de septembre divisés par l'ETP de tous les enseignants attachés aux écoles (colonne 5);

   c) effectif de septembre divisés par l'ETP de tout le personnel enseignant qui travaille dans les écoles et au bureau central des conseils (colonne 6).

On doit faire attention en faisant des comparaisons entre les taux d'encadrement pour 1000 élèves ou entre les taux d'encadrement de différents conseils scolaires. En comparant ces chiffres, d'autres caractéristiques des conseils (p.ex.: l'importance l'emplacement du conseil) doivent être prises en considération.
